

Testimonial

It is a true fact that people come into your life for a season and for a reason. The founder and CEO of "Motivational Mindset Movement" did just that. I was in a crossroad in my life, and really didn't understand what direction my life was going. After talking with Mrs. Angela Marie Jones-Braggs it inspired me to see myself on a new level. I had to release the old me and welcome the new me; and because of her motivation I am at a place in my life where I don't talk about what I would like to do, but now I create a vision board and plan how I am going to birth that vision. Saying "YES" to God and totally surrendering to him will make it a winning season for you. Mrs. Angela Marie Jones-Braggs, thank you for saying "YES" to your purpose. This is truly deemed to be "My Yes Year", and I am convinced Positive Thoughts Produce Positive Results!
